Opettaja Magazine is unquestionably the number one media in the Finnish education sector. Opettaja Magazine, the trade magazine for teachers, is published every other Friday and is targeted at all teachers from early childhood education to university.

Opettaja Magazine is the only media that reaches decision-makers and professionals at every level of the education sector, delivered to their home address. The printed magazine has 196,000 readers. And most importantly, as many as 80% of them are regular readers. The total reach of the print and online magazine is 210,000 readers (NRS 2019).

For its advertisers, Opettaja Magazine offers up-to-date and reliable research data to support media decisions. We are a regular participant in National Readership Survey and, as required, we arrange for separate research studies measuring the decision-making in the teaching field and the use of media. Ask for research data on Opettaja Magazine media sales!
